

CX-3

AUTO EJECT POD SPECIALTY DRINK MACHINE

Introducing the CX-3 from Newco, your personal barista for specialty coffee drinks in the workplace. Enjoy delicious coffees, teas, lattes, cappuccinos and more with the press of a button and all in under one minute. There's never a reason to leave the workplace for great tasting coffee or specialty drinks again.

Drink Options

	Freshly Brewed Coffee Choose from a full menu of coffees and enjoy the flavor of coffee brewed one cup at a time.
	Espresso A full-flavored, concentrated "shot" of dark, robust coffee.
	Caffè Latte A robust shot of espresso, with a healthy covering of hot steamed milk.
	Cappuccino A robust shot of espresso and equal parts steamed and foamed milk.
	Mochaccino Coffee or espresso blended with whipped hot chocolate and milk.
	Caffè Mocha Coffee or espresso blended with whipped hot chocolate.
	Hot Chocolate Delicious whipped hot chocolate.
	Hot Tea Choose from a full menu of teas including black, green, white and herbal.

The difference is the taste:

Individual single portions of coffee (PODS) provide the most aromatic and

enjoyable taste experience over other capsule based systems. With a pod the freshly ground coffee is enclosed in filter paper rather than plastic, all of the wonderful aromatics and extracted coffee solids are allowed to pass to your cup. PODS not only allow for the best extraction possible, but provide wonderful aroma that you simply cannot get from a sealed plastic capsule. Brighten up your work place with the aroma of freshly brewed coffee and enjoy the difference the CX-3 offers.

Unmatched Individuality:

CX-3 includes 98 preset recipes to choose from. Simple. Select the recipe you would like to use and assign it to one of the 9 buttons on front. Choose from tea lattes, shot of milk or variable strengths and cup sizes for all recipes. All recipes are pre-programmed and ready to use to personalize your CX-3 just the way you like.

Brewing Responsibly:

Not only do PODS brew delicious cups of coffee and tea, but they are also biodegradable making them very earth friendly. CX-3's innovative use of 2 lb. bulk hoppers for milk and chocolate drastically cut down on waste without sacrificing drink quality. One 2 lb. bag of milk and 2 lb. bag of chocolate is the equivalent of approximately 75 milk and 50 individual chocolate capsules in other brewing systems. The end result is a great coffee experience while helping to protect the environment - one cup at a time.

CX-3

AUTO EJECT POD SPECIALTY DRINK MACHINE

New Features:

- New Pump Design which reduces noise when the equipment is brewing and provides superior control over the brewing process.
- Improved software for rinsing the whipper bowl to eliminate dripping after dispense of Milk based drinks.
- Universal Brew Mechanism for Pods
- Increased Cup height: removable drip tray and adjustable legs provide the cup clearance for travel mugs.

The new brew mechanism has been designed to allow easy placement of a pod whether symmetrical or A symmetrical and still achieve a great cup of coffee. The design allows for Pod ranges from 4 grams to 18 grams. Pod sizes from 45mm - 72mm. *Check out the new larger pods for travel mug brewing.
